

By Carl Barkow

Have you ever spent a night when there was no sleep in you, alone with your thoughts, you mentally surveyed the whole scheme of things and wondered what it is all about and just where it is leading? Well, we spent such a night last night. Maybe too much ice tea or cigarettes or just too much late reading of political speeches and war news. Whatever the cause, when we found that closing the eyes, counting sheep and pretending to be unconscious didn't bring the desired sleep, we looked out of the open window into the calm cool night made serene with the soft moonlight filtering through the pines that faintly rustled in the light breeze, and we were grateful that providence had brought us here.

We thought of the contrast between the quiet peace of the desert and the heartaches and suffering of Europe. Here we know we will not be called from our beds by shrieking sirens warning of impending air raids or bursting bombs that are only merciful to those whom they kill. We thought of the millions of sleepless fathers and mothers of Europe who probably can't understand why all this misery has come to them and their children, who have no brighter outlook than famine, pestilence, or death, wondering where their sons may be on this night. No happiness or contentment for them to look forward to in this generation, nothing but grief, quarreling and oppression, with eventually an empty peace. Truly, the most fortunate of these are the ones that have met a kindly death.

With these thoughts in mind, we were filled with gratitude that such a scourge has not come to our country, and a firmer conviction that it is the sacred duty of every citizen that it shall not come. We thought of the words of Herbert Hoover:

"The first policy of calm realism is not to exaggerate our immediate dangers. Every while that spouts is not a submarine. The 3000 miles of ocean is still a protection. The air forces, tanks and armies of Europe are useless to attack us unless they establish bases in the Western Hemisphere. To do that they must first pass our Navy. It can stop anything in sight now. In any event, this ocean and our magnificent Navy give time for sober preparation."

"The most vital realism in all our relations requires that we keep out of these wars unless the Western Hemisphere is attacked. It is a solemn determination. Our price of war is the lives of sons and the poverty of our grandchildren. But we are here also considering the fate of our nation and the fate of liberty in the world."

"We must develop and maintain foreign policies that keep us out of these wars unless we are attacked. We should facilitate all nations fighting for their freedom in procuring materials and munitions but subject to definite limitations which keep us out of war."

We spent most of Sunday and our evenings this week reading editorials and special articles in newspapers and magazines and listening to radio speeches, which has confirmed our opinion that the country is united on two points: national defense, and elimination of the fifth column. Democrats, Republicans, Isolationists, Interventionists — all are agreed that America must be kept safe for Americans, and that foreign agents and their hirelings will no longer be tolerated here. Registration, investigation and observation of aliens by the government is the first move in this direction. The government should also keep a wary eye on citizens of doubtful loyalty, because there is ample proof that citizens betrayed their own countries in Norway, Holland, Belgium and France. That is the reason we favor finger-printing every individual in the country. The loyal law-abiding citizen has nothing to fear from being finger-printed. In fact, it is his protection.

There never was a time when there were better opportunities for skilled mechanics and mechanical engineers than now. Factories building airplanes, tanks, trucks, big guns, rifles, and other munitions, and the shipyards need skilled mechanics. Those who are not skilled but have a bent in this direction can attend any of the numerous training schools and thus earn high wages in a short time. There are also many opportunities for men who want to become skilled in operating this war equipment, for if war should come, the highly trained man has a much better chance to survive than the hastily trained recruit.

Two Important Council Meets Next Wednesday

The Palm Springs city council will meet twice on Wednesday of next week, July 3—once at 10 o'clock in the morning and again at 7:30 that same night.

Wednesday night will be the regular monthly meeting of the council for July. At that time the council may vote on the proposed sign ordinance.

Both meetings will be held in the city court room at 480 North Palm Canyon Drive.

Palm Springs Lads Facing Quarantine

The 850 boys, including Glenwood Tompkins, Allen Hall, Richard Outcault, Donald Pendery and Raymond Sorum of Palm Springs, who are attending the American Legion-sponsored "Boys' State" encampment at the state fair grounds at Sacramento were isolated by capital city health authorities Thursday after two cases of scarlet fever were discovered at the camp. They were later released to visit the state capital.

Mrs. M. A. Hawthorne, director of nursing of the Sacramento health department, said Dr. H. L. Wynn, epidemiologist for the state department of public health, had been called in to determine whether a quarantine would be imposed which would keep the boys at the fair grounds after Saturday, when the camp was scheduled to conclude.

The two boys who were found to have scarlet fever were Gareth Sadler, Palo Alto, and Lawrel Simpson, Pomona. They were removed to an isolation ward at the Sutter hospital.

The boys in the camp are from all parts of the state. All are high school juniors and were elected to participate in the camp by local American Legion posts and civic organizations.

Mrs. Hawthorne said that if no additional cases break out, it probably would be possible for the boys to leave for their homes on Saturday. Health authorities in their home towns would be advised in such an event, she said, so that vigilance could be continued by them to prevent spread of the disease.

L. A. Man Buys Home Near El Mirador

Lot 28 of the El Mirador Estates located near El Mirador at Palm Springs, has been purchased by Leonid Fink of Los Angeles.

The seller was Franklyn L. Wenck, also of Los Angeles. The property, which has dimensions of 120x135 feet, is improved with a residence.

The deed was filed with County Recorder Jack A. Ross by the Security Title Insurance and Guarantee company.

VILLAGERS TO SPEND WEEK END AT LAKE ELSINORE

A group of villagers will enjoy this week end motor boating and aquaplaning on Lake Elsinore. They are Mr. and Mrs. Floyd Bigley, Mr. and Mrs. Harold Smith and Mr. and Mrs. Pat Ledon.

Mrs. Harold Smith has taken a cottage at Lake Elsinore for the summer, and Mrs. Bigley plans to spend a few days of next week at the cottage with her after the rest of the party have returned to Palm Springs.

Using Floyd Bigley's racer, the villagers expect to spend most of their time on the surface of the lake, racing, and aquaplaning. They may do a little fishing.

\$150,000 of New Construction Now in Progress in Palm Springs; Nearly 200 Men Employed

The fact that activity in the local building field is far ahead of this time last year and that prospects are good for the continuation of this semi-building boom through the summer was revealed this week by prominent local contractors and city building officials. These men estimate that nearly \$150,000 of new construction is in progress in Palm Springs at the present time, contrasted with some \$25,000 at this period last summer.

MAY AND JUNE BIG

Building permits for May and June of last year totaled \$32,650. May and June, 1940, \$137,000. By Wednesday of this week 16 permits for this month totaled \$72,000 with several days still to go before the end of the month.

Total permits for the first six months of this year also far exceed the first six months of 1939, in fact they are about 65 percent of the total for 1939.

Only \$345,572 worth of building permits were issued by the city during 1939. The \$225,000 issued during the first six months of 1940 is approximately 65 percent of this total for last year.

It is estimated that in the neighborhood of 200 men are employed on construction jobs in Palm Springs right now, far ahead of last summer.

BOOM TO LAST

With the new library, two school additions and various other jobs in prospect, it is believed that building here will continue at the present tempo throughout the summer.

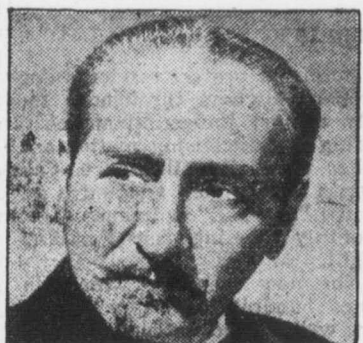

FREE TREES OFFERED BY CITY

Trees on the site of the proposed new Welwood Murray Memorial Library that will have to be removed to make room for the construction of the new building may be had free of charge by persons wishing to remove them, it was made known at a council meeting held Wednesday afternoon of this week.

The trees include figs, fir trees, two palo verdes and some tamarisks. A person wishing to remove any one or more of these trees to his home yard should contact Jerry Sanborn at the city hall some time early in July.

As all the trees on the library site are not to be removed, it is imperative that Mr. Sanborn be contacted before any tree is dug up. Mr. Sanborn will indicate which trees are available free of charge.

LOWER PRICES, TOPNOTCH SHOWS FEATURE BANNING THEATRES' BID FOR SUMMERTIME BUSINESS

ADOLPHE MENJOU

The Banning Theatre this week made its bid for the Palm Springs summer-time movie business by announcing a new low price coupled with the purchase of the motion picture industry's finest products.

Outstanding Pictures

The new prices, which are now in effect are 25c for general admission, 30c for loges and as usual 10c for children.

Friday and Saturday the Banning Theatre plays "If I Had My Way," with Bing Crosby and Gloria Jean and also Hugh Herbert in "La Conga Nights." Both are great fun pictures.

Turnabout Three Days

Then for three days starting Sunday, the management of the Banning Theatre has booked 1940's sensational comedy, "Turnabout," which stars Adolphe Menjou, Carole Landis and John Hubbard. This picture, the management states, is positively the best comedy since "Topper" and "Turnabout" was written by the author of "Topper."

Safari Coming

As a companion feature to "Turnabout," the Banning Theatre has booked "Safari," starring Douglas Fairbanks, Jr., and Madeline Carroll. Both pictures will show Sunday, Monday and Tuesday.

Other pictures coming to the Banning Theatre soon are: Wednesday and Thursday, July 3 and 4, "One Million B. C.," and "Florian"; Friday and Saturday, "Our Town" and "An Angel From Texas."

Other fine pictures have also been booked by the Banning Theatre and will be shown soon.

It is true that money won't cure worry, but it does enable one to worry in comfort.

Miss Vera Waterman, Harold "Dutch" Smith Wed in New York

The news has reached Palm Springs that Miss Vera Waterman of I. Magnin's El Mirador Shop, and Harold "Dutch" Smith, former El Mirador swimming professional, were married in New York City last week.

Vera Waterman Smith and Miss Helen Lindsay, the latter manager of I. Magnin's Palm Springs shop, left for the East soon after the close of the Palm Springs season, and were joined in New York by Mr. Smith.

Mr. Smith was a former Olympic diving champion and for several seasons had charge of El Mirador pool. He is now employed by "Mabs of Hollywood," manufacturers of swim suits.

JOE BUTLERS LEAVE FOR OREGON

Mr. and Mrs. Joe Butler and baby expect to leave Palm Springs next Tuesday morning on a three-weeks vacation trip into Oregon.

In Oregon the Butlers plan to visit the Stanley Morgans who operate the King's Drug fountain here during the winter season. Joe Butler is manager of the Palm Springs Safeway store.

COMMANDER BOYDS DROP IN

Commander and Mrs. Thales S. Boyd motored up from San Diego this week in order that the Commander could attend a meeting of the Palm Springs city council Wednesday afternoon.

The Boys have taken an apartment at San Diego for the summer.

OUR LADY OF SOLITUDE CATHOLIC CHURCH

The Rev. Michael O'Connor, Pastor

Mass every Sunday morning throughout the summer at 7:30 a. m.

Real knowledge, in its progress, is the forerunner of liberality and enlightened toleration. — Lord Brougham.

CITY COUNCIL

The Palm Springs city council met at 4:00 p. m., Wednesday of this week in the city court room at 480 North Palm Canyon Drive and considered a number of important matters. Only four councilmen were present—Ray Sorum, acting mayor during the absence of Mayor Philip L. Boyd; Commander Thales Boyd, Frank Shannon and Bob Murray.

Commander Boyd, chairman of the street committee, reported that state gas tax funds have been allocated for the Tamarisk Road improvement project. This project includes removal of the tamarisk trees and widening of the present pavement from Indian avenue to Via Miraleste, and will be completed some time during the summer.

Approve Agreement

It was announced the project agreement for the city of Palm Springs had been received from the California Division of Highways. This agreement is for the fiscal year 1940-41 and relates to the spending of state gas tax funds for maintenance and repair of designated "streets of major importance." The new project agreement is the same as last year's with the single exception of the special Tamarisk Road improvement project, which was added. The \$700 for the removal of trees, etc., on that street will come out of 1940-1941 gas tax funds. The council passed a resolution adopting the project statement from the state.

Gas Tax Streets

Palm Springs' streets of major importance designated in the agreement (those streets that can be maintained and repaired out of gas tax funds) are the following: Indian avenue, Tamarisk Road from Palm Canyon Drive to Sunrise Way, Sunrise Way to Tamarisk to Ramon Road, Ramon Road from Palm Canyon Drive east to the city limits, Palm Canyon Drive south from the Indian turn-off to the city limits, and all cross streets between Palm Canyon Drive and Indian avenue from Baristo Road on the south to Paseo El Mirador on the north.

Asks Job

A communication was read from Earl Neel requesting the council to appoint him a relief fireman during the time the regulars are taking their vacations, salary \$150 per month. Another communication was read from Fire Chief Bill Leonosio recommending Neel for the appointment. The three regular firemen receive two weeks vacation with pay each this summer, which will probably make it necessary to engage a relief fireman for six weeks.

Wants Pet Shop

A letter was read from Rea Reed, She requested the council to give her permission to operate a pet shop in the Morrison building on North Palm Canyon Drive; this is in Zone C-2. She said the shop would be for small pets only; that she would have small puppies, birds, goldfish, dog food, bird seed and pet supplies. The council voted to refer the matter to the planning commission.

A resolution was passed engaging Millard Wright to install palms on the site of the proposed new Welwood Murray Memorial Library and also to move certain other palms now growing on the property. The resolution was passed subject to the approval of the library board, however.

O. K. Library Plans

Also subject to the approval of the library board, the council passed a resolution approving the preliminary plans, floor plan and front elevation, for the proposed new library building to be built this summer. The plans were prepared by Architect John Porter Clark.

The council adjourned to 10 a. m., next Wednesday morning, the time of the next meeting. The council will meet again at 7:30 in the evening next Wednesday. Both gatherings will be held in the city court room at 480 North Palm Canyon Drive.

Library Schedule

The summer hours of the library are as follows:
Monday—9-12, 1-5, 7-9.
Tuesday—9-12, 1-4.
Wednesday—9-12, 1-5, 7-9.
Thursday—9-12, 1-4.
Friday, 9-12, 1-4.
The library will be closed all day Saturday and Sunday.

Culver Nichols Elected Chairman of County Planning Commission

Culver Nichols, president of the Palm Springs Chamber of Commerce and a prominent local subdivider, Tuesday of this week was elected to the important post of chairman of the Riverside County Planning Commission, replacing Jack A. Ross, who declined to run for re-election. The annual organization meeting of the commission was held in the city of Riverside.

UNANIMOUS VOTE

C. C. Coffey of West Riverside also was a candidate for chairman, but after the voting in which Nichols was elected Coffey moved that the action be made unanimous.

C. B. Cravens, county road superintendent, was re-elected secretary of the commission.

The resignation of George Snidecor of Corona from the commission was received and referred to the county supervisors for appointment of a successor. As Corona, like Palm Springs, is interested in highway beautification in their area, the hope has been expressed here that the people of Corona will get together and suggest a progressive, far-sighted individual for the board of supervisors to appoint to the planning body to fill the place vacated by George Snidecor.

The matter of the proposed roadside zoning ordinance for the Palm Springs district, recently rejected by the county supervisors, was referred to a committee headed by Chairman Nichols for further study.

Ross, county recorder, said that the press of other duties made it advisable for him to resign as chairman of the commission, although he will retain his membership upon the planning group.

SUMMER MAIL SCHEDULE

Commencing Saturday, June 15, the Palm Springs postoffice will be closed Saturday afternoons from 1:00 p. m. This will be in effect until Sept. 15.

The last dispatch of mail will be at 1 p. m. on Saturdays. The incoming afternoon mail will be distributed to boxes, but no windows will be open after that hour.

R. M. GORHAM,
Postmaster.

McNEERS VACATION IN HIGH SIERRAS

Mr. and Mrs. H. D. McNeer and children are expected to return to Palm Springs some time today, Friday, from a 10-day fishing and vacation trip in the High Sierras.

Mr. McNeer is one of the owners of the big Plaza Garage business.

NORTHERN FRIENDS VISIT R. DUNLAPS

Mr. and Mrs. Dean McPherson of Aberdeen, Washington, recently spent a week here visiting with Mr. and Mrs. R. Dunlap of Palm Springs.

Mr. Dunlap is employed at the Mills Liquor Store.

NEW DRIVERS LICENSES NOW OBTAINABLE AT BANNING AND INDIO

Palm Springs motorists who have "good until revoked" drivers licenses, the type that have been revoked and which will be illegal after June 30, can take their examinations and get their new drivers licenses at Banning and Indio.

According to Chief Harstad, new licenses can be obtained at the following places: Banning—Every Wednesday at the city hall from 9 a. m. to 12 (noon) and from 1 to 4 p. m. Indio—Every Thursday at the city hall from 9 a. m. to noon and from 1 p. m. to 4. Riverside—Every day, Monday through Saturday, at the office of the California Highway Patrol on Seventh street.

OPERATORS OF ESTRELLA VILLAS OFF TO WASHINGTON

Mrs. Geneva Fischbeck and her son, Jack Gorham, left Palm Springs today, Friday, for a motor vacation trip up the coast to Seattle, Washington. These two popular villagers operate the well known Estrella Villas on South Belardo Road.

Combining business with pleasure, Mrs. Fischbeck and her son will visit various resorts and resort hotels up and down the coast making valuable contacts. Their apartment-hotels in Palm Springs enjoys a fine patronage from the Pacific Northwest.

THE FOURTH OF JULY

In the story of the great French nation's death by violence, all America should recognize reason for the deepest, most heartfelt observance of Independence Day in the lifetime of any man living.

There is curious parallel between the histories of American and French liberty. On July 4, 1776, free America came into life. In the same month, only three years later, Parisians stormed the Bastille in the first blow to overthrow the despotic Bourbons—and July 10 has become the counterpart of our July 4 for France. The red, white and blue of the Tricolor was patterned after the red, white and blue of the Stars and Stripes.

But now the parallel ends.

On July Fourth, the Stars and Stripes will wave proudly from a million flagstaves over 130,000,000 free Americans.

On July Tenth, the Swastika of Hitler will flaunt insolence from French flagpoles—and the lowered Tricolor will symbolize to 40,000,000 grief-stricken patriots a shroud over the grave of France's freedom as a people, France's dignity as a sovereign nation.

Only to the shallow-minded could our Independence Day seem a time for wholly heedless celebration in this critical year. It should be rather a day of rededication to the American Flag and all that it represents—for reflection on the blood and tears that gave us that Flag and preserved it till today—for arousing ourselves to hard awareness that with us alone rests responsibility for ensuring that the Fourth of July will ever remain the Independence Day of this nation, and never become a day of mourning over the grave of American freedom. The Flag and the Day are our symbols. They are ours to honor. Ours to protect.

JUNE, 1914

Twenty-six years ago this month, on June 28, a fanatical Serbian student assassinated Archduke Francis of Austria and his wife—fired the first shot of the World War. The last shot, a shell fired needlessly one minute before the bugles sounded "cease firing" at 11 a. m., November 11, 1918, killed three French soldiers. Between the moments of those shots: 65,000,000 armed men fought four hellish years; 8,538,452 of them were killed, 21,210,000 wounded; wealth incalculable was poured down the maw of Mars. Hospitals, asylums and homes for the blind still house wrecks of men. Some nations that were in the beginning of that war have ceased to exist. The great "conqueror," Wilhelm II, is a doddering old man, sawing wood in a country his successor has stricken. Now aggressors march again—with weapons more terrible, greed more brutish, destruction more frightful. The lessons of the hard yesterdays of history are blindly ignored. The story of Europe in this century seems indeed "a tale told by an idiot, full of sound and fury, signifying nothing."

BOYS' AND GIRLS' STATE

Through the week of June 22-29 an important step in government is taking place in Sacramento: the annual Boys' State and Girls' State, when hundreds of California youths meet to formulate their own model government, and learn by practice more of the functioning of American democracy.

No more worthwhile project has been undertaken by the American Legion than its sponsorship of this annual youth government, including the statewide series of essay contests and other educational programs by which the juvenile legislators are selected. Typical of many essays is that of the 14-year-old Patricia Hawkins, El Monte high school girl, who wrote in part: "Already I feel the ideal Democracy lies within the shaping of my hands and those of other youth. I am an American. In America I am an individual. In America I am not afraid to laugh. I can face my ambitions and desires with the faith that I will have an opportunity to contribute towards civilization's advancement. Cannot the mighty American creed be summed up in these simple words: Broadmindedness, Courage, Faith, I think so, and I am glad."

The fostering of such ideals and national faith among California boys and girls, the training and inspiration of their work in fashioning their own ideal government, cannot be considered less than an important step in government itself. For in a few short years those young people will become leaders in civic and state affairs. Their training for patriotic responsibility is a splendid investment in the California of tomorrow.

CATHEDRAL CITY

By W. R. HILLERY

Luella M. Allen Answers Last Summons

A long and eventful life was ended with the death of Luella M. Allen at the Seaside Hospital in Long Beach on June 24.

Mrs. Allen (the first resident of Cathedral City) was stricken with paralysis several years ago and moved from the desert to Bell, where her husband, George G. Allen, passed away. The widow then moved to Long Beach where she has since resided with her girlhood friend, Miss Kathryn E. Case.

Two additional strokes on Friday and Monday were the immediate cause of death. Three brothers were with her Monday, S. C. Hillery of Huntington Park, R. N. Hillery of Cudahy and W. R. Hillery of Cathedral City. Also surviving her are two other brothers, A. R. Hillery of Skagway, Alaska, and Rev. H. E. Hillery of Patterson, New York; also two daughters of Mr. Allen, Miss Besie of San Francisco, and Mrs. John Gravelly of Seattle.

Presbyterian funeral services were held Thursday in Long Beach with interment in Forest Lawn with the remains of Mr. Allen.

Mrs. Allen was born in Nebraska, Feb. 8, 1869, shortly after her father was mustered out of the Union Army. Her girlhood was spent in Placer and Contra Costa counties of this state and in Washington Territory. After being left a young widow she went to Alaska with her mother and brothers and then married George G. Allen at Bennett, B. C., in the Yukon in 1899. After a year in the Klondyke they lived in Everett, Washington, then moved to Hermosa Beach, California, later to Los Angeles, and finally to the desert.

The cottage now owned by E. J. Wheeler was the first Cathedral City home and was originally set up in the last cove before entering Cathedral City.

BIRTHDAY DINNER FOR A. T. COBB

Mr. and Mrs. C. S. Cobb and Mrs. Ruby Bone of Cathedral City motored to Lomita last Saturday night. The occasion was a birthday dinner for A. T. Cobb at the home of Mrs. Bergen, Mr. Cobb's sister.

Mrs. Marian Keller is enjoying a trip north to Seattle, Washington. She is expected back home in Cathedral City soon.

1927 LICENSES EXPIRE SUNDAY

All California drivers licenses issued in the year 1927 will expire at midnight, June 30. Anyone driving with a 1927 license after this date will be violating Section 250 of the Vehicle Code, which is a misdemeanor and punishable by not to exceed six months imprisonment or a fine of \$500, or both, according to a statement by Chief E. Raymond Cato of the California Highway Patrol today. "All officers of the Patrol," said Chief Cato, "will be directed to give special attention to this violation of the Vehicle Code."

At the same time, Director of Motor Vehicles Joe Mattson, stated that it is the intention of the Department to cancel all drivers' licenses issued in 1928, about August 1. Meantime, the Division of Drivers Licenses is accepting applications for renewal of all licenses issued in 1927 and 1928.

No charge is made for the new licenses.

Pay telephone bills before the 30th and receive discount.

Fourth of July: The American Idea. A timely patriotic poem by Edgar Lee Masters, distinguished American poet, illustrated with a reproduction in full color of a famous historical painting of the adoption of the Declaration of Independence. Don't miss it in The American Weekly, the magazine distributed with next week's LOS ANGELES EXAMINER.

HIGHWAY 99 BANNING

SPEECH SLANTS

By D. Pena

THE COUNTY AT A GLANCE

ELSINORE

Preliminary census figures for Elsinore were released the first of the week by Supervisor Seigler and show a 21.7 percent increase in population over 1930. The figures for 1940 were 1643, compared with 1350 in 1930. This carries out the claim of a few months ago that Elsinore will show a population of over 2,000 when the homes on the bordering hills, the Cleavelin tract, and around the lake are counted. This would mean an increase of over 40 per cent since 1930. The census figure of 1643 includes only those persons living within the city limits of Elsinore, which covers less area than any other city in the county.

COACHELLA

To commemorate and rejoice over our Independence Day, the Coachella merchants have promoted a public dance on the evening of Wednesday, July 3rd.

Coachella invites everybody to celebrate the Fourth. Dancing will start at 8:30 o'clock, after exhibition of a surprise that has been prepared by the celebration committee and the National Anthem has been played by the orchestra.

SAN JACINTO

Hope is being still entertained that a training school for airplane pilots will be brought to the Valley, and that the cities and smaller communities will welcome and encourage the institution of the schools is an assured fact.

The strongest hope that valley people have is that a school will be established by the Ryan Aeronautics school of San Diego, authorized by the United States government to select location and proceed immediately with preparing for the reception and training of young men to become pilots of every kind of plane.

INDIO

The city of Indio may soon have a playground of its own in the mountains if plans now being advanced by local groups are carried out.

Site of the park would be in the Santa Rosa mountains where a large area within the national forest is available for public camping sites. Santa Rosa has a large stand of timber, plenty of

running water, and many very attractive sites are to be found there.

HEMET

More than 60 persons not counted in the original canvass of the city of Hemet by federal census takers have been enumerated during the past week by Walter H. Sears, special census worker who has been assigned to the job of "double checking" the population figures.

The city council and the chamber of commerce have protested to the census bureau office at Riverside, claiming that the Hemet count of 2509 up to last week was far from complete. The councilmen and the chamber of commerce have cited voters' registration figures, water and electric meter connection totals and other data in substantiation of claims that the preliminary Hemet population is inaccurate.

Hemet people who believe they have not been enumerated are requested to notify the chamber of commerce office immediately.

PERRIS

Acting to protect residents and property owners throughout the city against indiscriminate scattering of advertising matter and other unsolicited literature, the Perris city council adopted a so-called "handbill" ordinance at its monthly meeting last Friday night.

The new measure, which defines handbills as "any printed or written advertising matter, any sample or device, dodger, cir-

COUNTY CHAMBER ANNUAL SESSION AT IDYLLWILD

Outlining in detail the work of the Riverside County Chamber of Commerce during the past year, a report prepared by Irwin E. Farrar of Hemet, chairman of the Chamber's board of directors, was read by him at the annual dinner meeting of the Chamber, held Saturday night at the Idyllwild Inn in the San Jacinto mountains.

The report is to be published in booklet form and distributed throughout the county.

Approximately 200 persons were present at the gathering.

Beaumonters Presides

Mayor L. W. Covert of Beaumont, presided as chairman at the dinner which was served at 6:45 o'clock. Pledge of allegiance to the flag was led by Boy Scouts and Graham Alexander directed singing of "America," following which Rev. Lascelles, pastor of Idyllwild Community church, pronounced the invocation.

Introduced by Chairman Covert, Gregory Esgate, vice-president of Idyllwild Chamber of Commerce and manager of the inn, welcomed those present in a brief address.

The principal speaker, George Hyette, superintendent of recreation and general manager of the department of playground and recreation of the city of Los Angeles, and author of "Administration of Public Recreation," discussed "Recreation — Our Third Largest Industry."

In developing his subject, Hyette stressed the part played by recreation as a cultural asset to communities, with particular reference to its importance in homes and neighborhoods.

Activities Outlined

Announcement of the mineral conference which is to be held at the Mission Inn on June 26, was made by Col. John H. Pirie, secretary of the County Chamber of Commerce. A. L. Bottel told of plans for the raising of a flag atop San Jacinto peak, in a special ceremony to be held on June 26. The event will be a feature of a two-day pack train trip of the San Jacinto Mountain Park association, which will leave Idyllwild on the preceding day.

Others introduced at the dinner included Mrs. Florence Rhodes,

cular, leaflet, pamphlet, newspaper, paper, booklet, or any other printed matter or literature," and prohibits the distribution or placing of any such handbill in or on any public street, park, or other public place within the city. It further forbids the placing or distribution of handbills in vehicles or on private property.

Action on the handbill ordinance came about as a result of recent repeated abuses of the privilege heretofore granted of unregulated distribution of printed matter throughout the city. Many residents had entered complaints that their property was being littered with unsolicited

Worth It!

secretary of the Banning Chamber of Commerce; Sen. John Phillips, Assemblyman Nelson Dilworth and Mrs. E. C. Talbot, the latter representing Supervisor Talbot in behalf of the board of supervisors.

During the dinner a musical program was presented by the Idyllwild Chamber of Commerce and following the meeting dancing was held in the lobby of the inn.

District Ranger May, of the forest service, described fire-fighting methods employed in mountain areas. Earlier in the evening, the new fire-truck stationed at Idyllwild had been seen in a demonstration of its efficiency.

At 4 o'clock in the afternoon, a brief business meeting was held by the county chamber board of directors, with Chairman Farrar and Directors A. A. Piddington of Riverside and Frank Shannon of Palm Springs present.

Attending from Palm Springs were Mr. and Mrs. Raymond Cree, Mr. and Mrs. Jack Williams and Mr. and Mrs. Alvah Hicks.

Marine Corps Recruiting Office In San Bernardino

The United States Marine Corps announces the opening of a recruiting office in the San Bernardino Post Office. This office is permanently established and is equipped to handle all local recruiting for the U. S. Marine Corps.

According to information received from Sergeant R. L. Creitz, Non-commissioned Officer in charge of the new office, an unlimited number of qualified young men can be accepted for immediate enlistment. These men, recruited from the San Bernardino area, will be furnished transportation to Los Angeles; then receive final transfer to San Diego where they undergo a complete course of training before assignment of varied posts and duties.

All interested young men are urged by the new station to apply for further information and ascertain the many advantages the Marine Corps has to offer newly enlisted men.

Expect Hundreds of Indians at Fiesta, July 5-6

Hundreds of Indians from all over Southern California will journey to the Morongo reservation north of Cabazon on July 5 for the fiesta, which will be given by the Morongos that day and July 6. Proceeds from the fiesta will be divided between the Catholic church and the Moravian mission on the reservation. The general public is invited to the fiesta and barbecue.

The festivities will begin Friday evening, July 5, with Indian games and bird dances.

Saturday morning there will be sports with a barbecue dinner from 11 in the morning to 6 in the evening. The Indians will butcher some of their own beef for the barbecue. The cost will be 50 cents per plate.

At two o'clock Saturday afternoon there will be a baseball game between the Morongo Indian team and the Santa Rosa Indian team, and at 4 o'clock there will be a program.

On Sunday, July 7, there will be another ball game. This will be played between the Cuahutemoc team of San Bernardino and the Morongo team.

The fiesta will be held on the baseball grounds and ramadas will be constructed at which ice cream and cold drinks will be dispensed during the fiesta.

The committee in charge of the fiesta and barbecue consists of three from each church and includes Joseph Saubel, Desiderio Laws, Mrs. John Martin, Mrs. Marincina Lyons, Mrs. John Morongo and Mrs. E. H. Oerter.

There are about 300 Indians living on the Morongo reservation at the present time. They have been without an agent for over a year. A tribal committee settles all local affairs and when there is some difficulty too great for them to solve they consult with Agent John Dady at Riverside.

The members of the committee are Henry Pablo, spokesman; John Morongo, Baristo Rice, John Martin, and Miss Frances Bosley. The election of the tribal committee is held each year on December 17. Last year all except one of the committee were re-elected.

EYE OPENERS—by Bob Crosby

AFTER CENSUS TAKER ALBION NELSON INTERVIEWED A LOS ANGELES, CALIF., WOMAN, SHE GAVE HIM HER AUTOMOBILE!

THE SAME NATURAL PRINCIPLE THAT MAKES COFFEE RISE IN YOUR PERCOLATOR, WAS APPLIED BY TWO SWEDISH COLLEGE STUDENTS TO INVENT THE AUTOMATIC GAS REFRIGERATOR!

One census taker in Los Angeles was hit over the head with a milk bottle, but another, Albion E. Nelson, was much more fortunate the following day. A rich woman insisted that he accept as a gift, her "old" car—a 1934 limousine.

It was in 1922 that two Swedish

college students, Baltzar von Platen and Carl G. Munter, working on their theses, applied the simple theory of the coffee percolator to invent an automatic refrigerator with no moving parts. Just as heat lifts the liquid in the coffee percolator, a small gas flame circulates a harmless refrigerant, thus producing constant cold.

Wants Congress To Remain In Session

CONGRESSMAN SHEPPARD DOES NOT FAVOR SENDING MEN TO EUROPE TO FIGHT

If all members of Congress take their duties to their country as seriously as does Congressman Harry Sheppard of Yucaipa, representing the Nineteenth District, Congress will not adjourn during the period of great emergency which now faces the country. Mr. Sheppard thus expressed himself in response to a letter from the publisher of The Palm Springs Desert Sun. The letter in full is published below.

June 17, 1940

Mr. Carl Barkow, Publisher, The Desert Sun, Palm Springs, California.

Dear Mr. Barkow:

Your communication of June 13th received and was highly appreciated.

I don't believe the Congress will adjourn. From all the information that I am able to ascertain the House will recess for short periods. Insofar as my personal attitude on the subject is concerned, I feel that the international situation has such grave ramifications that any public officer should feel it is his duty to remain in session in order to protect our nation against any eventuality that might develop.

Insofar as this being a political year is concerned, my nation and its welfare comes first and so far overshadows any political ambition of my own that there is no comparison. Adequate defense is of paramount importance and it is high time that there was enacted adequate legislation to eliminate any Fifth Column or subversive activities.

Too long have we been tolerant of subversive activities and lack of attention to our national welfare and I sincerely trust that every citizen who has any affection in his heart for our Democracy will loan every cooperative effort possible toward the attainment of the programs we have under way.

I don't believe it is incumbent upon this nation to send manpower to Europe but it is essential that we cease to rely upon the hypothesis of what dictatorships may do and prepare ourselves to meet any problem with which we might be forced to contend.

I extend to you my compliments for your attitude on this subject.

Yours cordially,
HARRY R. SHEPPARD

CHRISTIAN SCIENCE CHURCHES

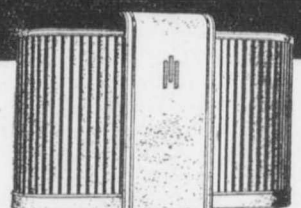

These words of Peter, "The prophecy came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost," are the Golden Text in the Lesson-Sermon on "Christian Science" on Sunday in all Churches of Christ, Scientist.

The Lesson-Sermon presents also these verses about Jesus from Luke: "And it came to pass also on another sabbath, that he entered into the synagogue and taught; and there was a man whose right hand was withered. And the scribes and Pharisees watched him, whether he would heal on the sabbath day; that they might find an accusation against him. . . . Then said Jesus unto them, I will ask you one thing: Is it lawful on the sabbath days to do good, or to do evil? to save life, or to destroy it? And looking round about upon them all, he said unto the man, Stretch forth thy hand. And he did so: and his hand was restored whole as the other."

Among the selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy are the words: "Do you say the time has not yet come in which to recognize Soul as substantial and able to control the body? Remember Jesus, who nearly nineteen centuries ago demonstrated the power of Spirit and said, 'He that believeth on me, the works that I do shall he do also,' and who also said, 'But the hour cometh, and now is, when the true worshippers shall worship the Father in spirit and in truth.'"

Bogart Bowl Improved For July 4th Event

Bogart Bowl, Riverside county's free picnic and outing park midway between Beaumont and Banning and closely adjoining Highland Springs Resort, founded in 1931 by Dr. Guy Bogart for the five years presentation of the Japanese Cherry Blossom Fiesta and other international events, is being improved for picnic use this month through the activities of Supervisor Robert E. Dillon.

Bogart Bowl will be extensively used for picnic lunches during this week-end Cherry Festival. Improvement in road and trails, general cleaning up, building of a 30 x 50 foot dance platform, and additional picnic tables are among the changes planned for completion in time for the big

July 4th celebration announced for the Bowl.

J. W. Sparkman, engaged jointly by the county and irrigation district, to look after Bogart Bowl this summer, with 20 boys assigned from the NYA, reports hundreds of cars in the Bowl on the last Sunday, including numerous out-of-state vehicles from such widely scattered sections as New York, Washington, Arizona and Missouri.

Bogart Bowl was visited by more than 100,000 persons in the five days of the blossom festival under direction of Dr. Bogart. For the past few years it has been used mostly locally for picnics but Supervisor Dillon plans to provide facilities bringing this wooded wild canyon, four miles from the state highway, to use of all Southern California autoists and tourists.

The world's longest floating bridge, under construction across Lake Washington near Seattle, will be a mile and a quarter pontoon span.

Want Palms Along Highway, Beaumont to Palm Springs

Highway Beautification Committee of
Beaumont and Banning Make Plans for
Planting Palms, Olive Trees, Shrubs

If the Highway Beautification Committees of the Banning and Beaumont Chambers of Commerce have their way—and they have reasons to believe their recommendations will be adopted—there will be eventually a continuous row of palm trees from Beaumont to Palm Springs. Between Beaumont and Banning they propose planting of olive trees, sumach and pyracantha between groups of palms.

The joint committee has been authorized by the State Highway Department to make its recommendations for landscaping the 20 foot strip of ground that will divide the two two-lane highways, between Beaumont and Banning. The planting of Washingtonia Filifera palm trees was suggested, eight groups of them to the mile, and it met with instant approval of the committee. Palm trees were suggested because they are typically Californian, because they survive with little water, and because the highway leads to the only area in the country that is the native habitat of these trees.

Want Palms All the Way

The hope was expressed that palms would also be chosen for the center strip of the highway from Banning to the Palm Springs junction and that eventually Palm Springs and the County Planning Commission would see to it that the planting of palms be continued along the Palm Springs highway to the group of stately palms at the city limits of the desert resort.

For the Beaumont-to-Banning stretch the committee recommended the occasional interplanting of olive trees in order to carry out the continuity of the olive trees now growing on the south side of the highway near Beaumont, which will be in the center strip when the four-lane highway is built. Also, between the trees, the committee proposed the planting of pyracantha, which has bright green leaves the year around and an abundance of red berries from October to March, through the Christmas season, and also native sumach, commonly known as mountain laurel, which has shiny green leaves and is used extensively in making Christmas wreaths.

Native Shrubs

Although no action was taken on the matter, the committee hoped that native desert shrubs would be planted in the center strip between the palms from Banning to Palm Springs. There are a number of such trees and plants, such as palo verde trees, smoke trees and Spanish bayonet. The palo verde tree was preferred by the committee.

It is believed that arrangements can be made to give the trees sufficient water the first few years to insure good growth, and after that irrigation will not be so necessary, although it will be beneficial in continuing the growth.

1000 Men Wanted For Immediate Army Enlistment

A requisition calling for the immediate enlistment of approximately 1000 men under the expansion of the Army was received today by recruiting authorities of Southern California.

Virtually every post and branch of service on the Pacific coast, the Philippine Islands and Alaska is represented in the increase, it was announced, with the greatest number to be recruited for the reconstituted 53rd Infantry at Camp Ord, California, Army training center for the Pacific coast, near Monterey. Aviation engineers, motor mechanics, typists, clerks, cooks and bakers, are the specialists in greatest demand.

Men enlisting now with no special qualification will have an opportunity under the expansion program to learn a trade and be paid a salary while learning a vocation, it was announced.

Vacancies exist at Camp Ord, March Field, Fort MacArthur, Moffett Field, Hamilton Field, Presidio of San Francisco, Fort Rosecrans and Fort McDowell, California, Alaska and the Philippine Islands.

Complete information may be obtained at 215 Federal Building, San Bernardino.

ELLIS PARKERS LEAVE FOR ALASKA

Mr. and Mrs. Ellis Parker left Palm Springs June 18th via auto for points between here and the Jackson Hole country, thence to Glacier Park and Seattle where they will take a steamer for Alaska.

Latin is studied by more pupils in American high schools than are all other foreign languages combined.

Pay Telephone Bills before the 30th and receive your discount.

(Continued from Page One)

who hasn't fully learned how to protect himself. The war in Europe has proven that.

We are now in the beginning of the end of the depression. The huge national armament program will take up the slack in unemployment and will put at least five billions of dollars in circulation in addition to two or more billions to be spent for the same purpose in this country by Britain.

To relieve suffering in the war-stricken countries our surplus commodities and medical supplies will probably be sent across the seas, and thus we will return to capacity production in agriculture and most of the industries.

Few people in America would object to this country shipping enough food, medical supplies, and wearing apparel to Europe to take care of the needs of the sick and starving children and old people who have lost their homes and land. In fact, most of us are willing to take these things over there in American Red Cross ships. All that the good American Samaritans ask is that their mission of mercy should not be permitted to embroil this country and heap the same pestilence upon our women and children as that which they are attempting to relieve.

Everywhere we hear the same sentiment expressed: If the Allies can't pay for their war supplies, let's give them what they need and forget to collect for it.

This mission of mercy, headed by the Red Cross and the home defense patriots, is having a wholesome influence on the entire nation. It is uniting the nation in a common cause. We are doing something for others and forgetting our own troubles. We are again to have something to do. We are thinking of America's safety, which brings to our attention everything that is un-American.

How are we to help in this great American mission? Let's keep ourselves well and strong so we will not be a burden on the country. Let's cooperate with the government in every way possible in stamping out of our own midst every foreignism. Let's live in peace among ourselves and not waste our energies in petty squabbling.

Let's support the program of national defense. Let's help the innocent victims of the war by giving through the Red Cross. If we do that, we unconsciously enrich our own lives, for there is no greater truth than "It is more blessed to give than to receive."

It isn't always the best campaigner who is the best public official. In the race for Superior Court Judge of Riverside county at the coming August Primary, we believe the voters could not do better than to elect the candidate who will probably be the least active in the campaign, viz: Judge George R. Freeman. There are several reasons why he should be retained on the Superior bench: He has a keen mind and is recognized as a brilliant lawyer. He has a splendid record as a judge in that very few of the cases brought before him have been appealed to higher courts. The Corona Independent recently said of him: "It is extremely doubtful if there is any Superior Court Judge in the state of California who has as large a percentage of cases affirmed by the higher courts." This means a saving to the taxpayers who, after all, maintain the courts. Furthermore, the taxpayers will save \$3500 a year by electing Judge Freeman, for he will get a pension in that amount if he is retired.

Desert Goes Modern

The annual Summer Resort and Travel edition of the Cincinnati Enquirer, of June 9th, published a very complimentary article about Palm Springs, under the heading, "Desert Goes Modern." The edition was mailed to 200,000 homes. Following is the article:

Palm Springs in California's Coachella Valley is the desert gone modern. The town has attracted smart shops, fine resort hotels, and a wide variety of sports facilities, all up-to-date luxuries which vacationists demand. But the luxury atmosphere never quite reaches the satiation point, for the desert steps in.

The rugged simplicity of the desert, the soothing tang of the dry air, and the natural beauty and solidity of old Mount Jacinto subtly restore the balance. At Palm Springs, the vacationist knows he can be rested, amused, or inspired, according to his moods.

For the first few days a readjustment usually takes place, because of the relaxing atmosphere of the desert. After breakfast mornings may be passed on tennis courts, in a lounge chair by a swimming pool, or in the pool itself with water heated just enough to remove the chill.

Afternoons at Palm Springs can develop into a number of interesting pastimes. The Tennis Club, nestled at the foot of the same red rock hills and the famous Desert Inn, a short distance from town, offer hospitality. Club members have nicknamed it "Shangri-la Junior."

Through the center of sloping green lawns runs a trout brook. The trick is to catch a trout and a few minutes later have it served for luncheon. The dining room veranda overlooks the club grounds, a swimming pool, three tennis courts, and beyond the mountains and the broad sweeping desert.

Palm Springs has its Racquet Club operated by two cinema couples, the Ralph Bellamys and the Charlie Farelles. The hand-some swimming pool is usually

left to sun by itself, while crowds gather by the courts and in the bar. Hollywood empties itself into the Racquet Club over every week end.

Another favorite stop-off during week nights are the Rogers Stables—half stables and half night club bar. The place rings with cowboy music and the shuffle of sandals and boots.

In spite of all the land sports available at Palm Springs—tennis, golf, skeet shooting, badminton, cycling and motor touring—the way to catch the desert spell is to get a horse and ride into sunset or sunrise. Cowboys always assure guests they are good western riders.

Though one feels like a ball bouncing on the saddle, the cowboy alongside insists: "Why, lady, you're stickin' on there easy as glue!" As the canter continues, he gives his lariat a whirl and yanks a sagebrush, roots and all, out of the desert. Dudes are prone to think riding is easy.

Palm Springs is famous for breakfast rides. Riders have to be out of the stables by eight. Non-riders go out by stagecoach to a given spot, usually a grove of desert smoke trees. Long before the breakfasters arrive, cowboy chefs have been busy since dawn getting the fires and "chuck" ready.

The fare at the long board tables will consist of flapjacks, scrambled eggs, bacon, raisin toast, and steaming coffee. The breakfasters may include Jackie Cooper, the Johnny Weissmullers, Claire Windsor, or Joan Crawford.

There are moonlight desert rides and picnics, trout fishing, and trips to near-by canyons. Riders don jodhpurs or leather skirts, wool shirts, jeweled belts, ten-gallon hats, and tiny silk handkerchiefs. The temperature is 81 degrees by day, 45 by night.

As important as the fashionable visitors are the fine hotels—El Mirador, Desert Inn, Casitas del Monte, The Oasis, Smoke Tree Ranch, the Royal Palms. Palm Springs is easily reached by the Southern Pacific Railroad.

PALM SPRINGS RESIDENCE SOLD

William D. Dean of Los Angeles has purchased from Smoke Tree Properties, Inc., lot 12 of Smoke Tree Ranch, tract No. 3, it is indicated in a deed filed with County Recorder Jack A. Ross by the Security Title Insurance and Guarantee company.

The property, located at the northeast corner of Shoshonean Trail and Lahontan Road, south of the Palm Springs business district, has dimensions of 120x117 feet and was recently improved with a new residence.

Goodness and benevolence never tire. They maintain themselves and others and never stop from exhaustion. — Mary Baker Eddy.
